Online Community and Directory of Filipino Dentists and Dental Students

Our web portal, www.pinoydental.com, is an online Directory and community of Filipino Dentists and dental students. It features dental health information resources for patients and dental professionals, an interactive message board/forum, a BLOG feature, a social networking system for our members, a calendar of activities for dental organizations, classified ads and so much more. We are now beginning our campaign to look for possible sponsors and advertisers that we can feature in our web portal. Our advertisement campaign, for now, involves placement of banner ads and product write-ups. We believe that your company will be an excellent choice as a sponsor. Our site is not a professional advertising or marketing company, we simply offer paid ad spaces so that we may be able to sustain and maintain our site in order to continue our free services and further improve as a dental information resource provider.

We have several ad spaces available for you to choose from:
